HinoWatch

24/7/365 assistance with our HinoWatch program gives you peace of mind. We'll help you get back on the road whether it's simply a dead battery or a more serious problem.

HinoWatch is free-of-charge. Three-year unlimited mileage roadside Assistance includes lockout, out of fuel, battery jump-start, information and warranty towing.*

Warranty/Roadside Assistance

Hino Trucks are backed by a two-year bumper-to-bumper unlimited mileage warranty, a three-year engine warranty and our pledge of 24/7 roadside assistance. With nearly 200 dealers nationwide, you're never out of our coverage area.

Toyota Financial Service

Toyota Financial Services is a leading provider of automotive financial services, offering an extensive line of financing plans and insurance products to Toyota Group customers and dealers in the United States.

From flexible finance plans to vehicle protection and insurance products, our programs are designed to meet the unique needs of each customer. We are committed to offering quality products that provide convenience and value, and to delivering consistent support that helps ensure customer and dealer satisfaction.

All information was current and accurate at the time of printing. However, Hino Trucks reserves the right to make changes at any time, without notice, to equipment, specifications or materials, or to discontinue items.

* Warranty towing coverage applies within the duration of the basic vehicle warranty coverage period (24 months).

J. D. Power and Associates 2008 Medium-Duty Customer Satisfaction StudySM rates Hino Trucks Highest in Customer Satisfaction Among Conventional Medium-Duty Trucks.

Hino Trucks received the highest numerical score among conventional medium-duty trucks in the proprietary J. D. Power and Associates 2008 Medium-Duty Truck Customer Satisfaction StudySM. Study based on responses from 1,525 total responses measuring 9 manufacturers. Survey was of principle maintainers and owner operators and measures opinions of primary maintainers of two-year old (by model year) Medium-Duty (Class 5, 6 and 7) trucks. Proprietary study results are based on experiences and perceptions of consumers surveyed in July and August of 2008. Your experiences may vary. Visit jdpower.com.

CAB CONFIGURATIONS

Hino Trucks – Versatile Cab Configurations

In addition to the standard left-hand drive model, Hino Trucks also offers three optional cab configurations, each one designed for driver efficiency and great outward visibility. So, no matter what business you're in, Hino Trucks has the right truck to meet your specific needs.

Attention to Detail — On Every Hino Truck

Comfort and convenience are standard on every Hino Truck with the finished look and quiet environment of our fully trimmed cab, tilt/telescoping steering wheel, enhanced driver information display, exhaust brake feature, AM/FM/CD, assist handles, coat hook, door pockets, overhead storage compartments, ample cup holders, cruise control and air conditioning.

STANDARD CAB

The ergonomically-designed interior of our standard cab includes conveniently located controls, a high seating position and generous sight lines. The seats are available in a variety of configurations including two-passenger bench seat and optional air-suspension driver's seat, upholstered in stylish new charcoal gray fabric or vinyl.

EXTENDED CAB

*2008 blue interior shown. Discontinued in 2009.

A fully-trimmed 30-inch cab extension is available with either a full-width bench seat, a 26-inch day bunk, or with the front seat configuration only. Side window vents add to driving comfort and a composite outer skin helps reduce corrosion. (Available on all models.)

DUAL-STEER, RIGHT-HAND DRIVE, SIT DOWN

Driver controls are mounted on both sides of the cab specifically for dual steer applications where curbside diving visibility is important. The ignition switch is centrally-located; both seating positions are equally spacious; and with our original equipment parts, reliability and serviceability are built in. (Available on 258ALP, 268A, 338.)

*2008 blue interior shown. Discontinued in 2009.

DUAL-STEER, RIGHT-HAND DRIVE, STAND-UP

Our dual-steer configuration with stand-up right-hand-drive offers improved operational safety and efficiency with industry-leading visibility, easy step-in/step-out curbside access, and a conveniently located hand brake. (Available on 258ALP, 268A, 338.)
