

HINO 338 Portable Toilet Truck

David Leal. Owner

NOR CAL PORTABLE SERVICES

SF Bay Area 1 (888) NORCAL6

“At NORCAL, we service over 1000 portable toilets and rent temporary fencing and power to construction sites throughout the Bay Area. My fleet of Hino trucks are always on the move. My drivers love the power and the cab comfort the Hino truck offers. But for me, the owner, its down to maintenance. Scheduling maintenance for me is a big concern. Monarch has done a great job working with our busy schedule. I have found it’s more cost and time efficient for me to have a driver go to Monarch, wait to have them perform the service quickly, and get my driver back on the road, rather than to have him drop off the truck and have another driver bring him back to our business. Communication. That’s the secret to success and Monarch understands that better than any other dealership I have used.”
