

FleetValue™ Brake Rotors

FleetValue brake rotors are OE Quality Parts at Competitive Prices supplying the long-term service and durability required to keep your truck operating at its best.

FleetValue rotors are made in the USA from the raw materials to the finished product.

FleetValue brake rotors meet or exceed Federal Motor Vehicle Safety Standards (FMVSS) 105 with FULL GVWR (gross vehicle weight rating) for On-Vehicle testing with various versions. FleetValue brake rotors were put through laboratory bench testing AND extensive On-Vehicle testing required for Original Equipment Manufactured parts. ALL FleetValue brake rotors have advanced fin design for improved cooling and durability, just like the current design of the latest OEM rotors. FleetValue brake rotors have been fully tested for wear, heat, judder, and fade.

Two key factors of your transportation needs are low cost of ownership and safe operation of your trucks. FleetValue rotors can help you meet both of these important needs.

FleetValue Parts are covered by a 1-year/unlimited mileage warranty. See your authorized Isuzu truck dealer for details.

FleetValue™ Brake Rotors

FleetValue Part Number (8 - Digit p/n)	Description	Abbreviated Application
2-9404R-720-0 (97780194)	Rotor, Disc Brakes, Front	1999 ~NPR/NPR-HD (Diesel), 1998 ~ NPR (Gas)
2-9404R-730-0 (97780195)	Rotor, Disc Brakes, Front	1999-2011 ~ NQR, 1999-2012 ~ NPR-HD Gas, 2005-2011 ~ NRR
2-9404R-740-0 (97780329)	Rotor, Disc Brakes, Front	06/1995-1998 NPR & W-Series (Diesel) 06/1995-1997 NPR & W-Series (Gas)

Note: Isuzu Commercial Truck of America, Inc.
 Recommends that you replace both rotors as a match set to provide balance and maximum braking performance.
 Please refer to your service manual for proper installation procedures.
