All Ways Towing & Transport

HINO 258ALP Extended Cab Car Carrier

## ALL WAYS TOWING

Northern California (510) 505-7980

*"The tow business is very demanding on trucks. Many truck brands have come and gone through our fleet enduring the stress and strain of this 24-hour-per-day, 7 day-per-week business. Monarch came to us a year ago to see if we were interested in trying the HINO brand. When we did our homework about HINO we noticed that their trucks have been test proven around the world. Along with their trucks being certified CARB compliant in the State of California with the latest up-to-date emission requirement, the track record of the HINO made us feel very comfortable investing in their trucks.*

*HINO has saved us in maintenance cost, fuel bills and, most importantly, no downtime like our other truck brands. Our fleet of 7 HINO's are ALL WAYS TOWING."*
