Howard Chan, Owner

*"I had numerous problems with my previous truck made by a different manufacturer. These problems led to excessive business expenses from downtime and towing costs. I contacted the manufacturer but was refused any assistance. I relayed my concerns to Monarch. Monarch listened, understood and went overboard to be fair. Monarch offered to buy my problem truck and replaced it with a new Hino. I accepted and Monarch delivered. I have had no problems with my Hino truck: it is reliable and is a true trouble free truck. I could not be more satisfied. Monarch Truck Center is a great company and is the only place I will ever buy a truck."*
