*“ Maintenance issues were my biggest headache. With over 165 trucks in my fleet, I was always towing broken down trucks into the shop. Now that Monarch has taken over the maintenance and replaced my problem trucks with Hinos my operating costs have been reduced significantly. My Hinos are getting double the brake life than my other brands. This is a huge savings for me. Monarch and I have a fantastic relationship. Monarch keeps tabs on my fleet and anticipates what maintenance I need. My costly tow bills have disappeared.”*
